

RECYCLE CLUB/YEARBOOK COMMITTEE

Mrs. Targachoff and Class 4 have started up a Recycle Club. On October 19, 2018 the students were sent out to explore and to communicate the reason recycling is so important to our school and our environment. We have designated each Friday afternoon between 12:30 pm - 1:00 pm as our club meet time. During this time we will travel through the building looking for discarded papers, cans and plastics to recycle. We feel that these activities will promote communication, a sense of community within our school and focus on some specific students goals. We are very excited to get this club underway.

During the above mentioned time frame we are encouraging each student to take pictures of their peers, teachers and/or events happening within our school. Teachers Mrs. Targachoff, Mrs. Perlin along with class 4 is looking forward to leading this initiative of organizing this Yearbook Committee.
