

CLASS 3 MARCH NEWSLETTER

This Month in Class 3

As February ends and we have finished up the JMSA Olympic games, it's safe to say that our class had a fantastic time participating in all of the games! We also celebrated Black History Month by listening to Canada's jazz musician Oscar Peterson and reading the poem "Shades of Skin". We learnt about mixing colours to create our own shade and that is what makes us special! As we head into the month of March, we will be participating in "The Paper Bag Princess" week and making our very own princess and prince crowns.

In Math, we have been exploring patterns. Students have been using their preferred ways to communicate to describe patterns and have been creating hands on patterns using different materials such as unifix cubes, bingo daubers and natural items (leaves and sticks). During our Winter Inquiry unit, students have been learning about different winter animals. We have been able to explore the Arctic through virtual field trips and watching animals in their natural environments. Class 3 students absolutely loved going deep down in the ocean to see beluga whales. Upon returning from March Break, we will move into our Spring Inquiry. I hope all of our families have a relaxing March Break!

Important Events

- March 19th - Leonard's Birthday!
- March 13th - 18th: March Break
- March 21st: World Down Syndrome Day - Rock Your Socks!
- March 25th: Cerebral Palsy Day - wear **green**
- March 26th: International Epilepsy Day - wear **purple**

Class 3 Achievements

Lucien has been doing an excellent job at participating in different structured learning activities by telling his friends different patterns and reading from his letter O reader! Keep up your fantastic work!

Le'Royce has been chatting up a storm with his communication devices. He helped read a book on his Step By Step to Miss Courtney! Keep reaching for the stars!

Marley loves giving her opinion to different stories or songs that she hears throughout the day. We love hearing her laughter and giggles when she really likes something! Your laughter always brightens our day!

Leonard has been doing an amazing job at counting different amounts of familiar objects to 10. You will always hear Leonard helping Mrs. M count in our morning activities! What an all-star!

Luke has been a math magician! He has been creating different addition number sentences to 10 using numbered pop its. After he's completed the number sentence he will repeat it back for his friends to hear! Keep up your amazing work!
