

Art & Music Cafe

Mrs.T

Art

Art class was an exploration of smells and textures of the holiday season. We created ornaments and snowmen. Some classes built snowmen using a variety of textured white materials such as goop, different textured paper, slime etc. While other students discussed smallest to biggest and the appropriate spot to place a hat, eyes and nose on their created snowmen as well as following two or three step directions.

December

This was an exciting month with holiday magic in the air! Students enjoyed numerous activities including working on a very special Holiday Concert which was so much fun and a great success. It's a wonderful time of year that reminds us to enjoy the simple things and be Thankful.

Drama

Students went on a "Gingerbread hunt" around the school where they needed to guess the riddle in order to discover where the next gingerbread man was located. Students were introduced to a variety of fun activities over the last couple of days, snowman knock down and Interactive Smartboard activities such as building a snowman. Students also helped dress Mrs.T. as a snowman by indicating which item went on next using their communication devices.

Music

In music class we focused on following action songs as well as learning to hold our new handbells. Some students were learning to follow colour notes in order to play simple songs.
