December 2021

COMMUNICATION CORNER

The holidays provide many opportunities for your children to interact and use their core words and communication devices in natural situations. While trimming the tree, they might want a **turn** or need **help** with putting **on** decorations. With gifts, they can guess **what** is **in** the box or ask to open it. With holiday music or movies, your children can request to play **more** or you can play **go** and **stop** with toys or turn your holiday tree lights **on** and **off**. This is a great way to prepare your children for a lifetime of meaningful communication!

A reminder to please take a look at our **Class 1 Twitter** page (our Twitter handle is [@FDK1_JMSA](#)) There you will find many photos and documentation of all the wonderful things your children are working on and the goals they are accomplishing!

Happy Holidays,
to the Wonderful Families
of Class 1!
