

## EDUCATIONAL CONSULTANT POSITION

**(Long Term Occasional) Internal Posting**

**Posting Date: November 23, 2020**

Educational consultant to provide consultation and support to JMCCSA and JMCC staff, local district school boards, and other community partners. Salary and duties commiserate with a position of added responsibility (Inclusive of Teacher in Charge).

### **POSITION:**

- Provide educational consultation and support to JMCC, JMCCSA staff, and local district school boards and community partners
- Collaborate as a member of a multidisciplinary team supporting children and youth with physical and neurological disabilities attending JMCCSA or community schools
- Consult with JMCCSA staff regarding assessment interpretation, report writing, strategies to support classroom teachers, curriculum modifications and accommodations, and alternative curriculum
- Provide ongoing support and programming /teaching strategies for students related to assistive technology
- Support analysis of data related to special education programming and services in alignment with the strategic plan
- Provide leadership within School Authority (Teacher in Charge, IEP, SEA, NTIP) and collaborate to support Ministry of Education and JMCCSA initiatives
- Provide staff development, organization and delivery in all areas of special education including universal design, differentiated instruction, assistive technology and remote learning
- Perform other duties as assigned by the Principal

### **QUALIFICATIONS:**

- Ontario Teaching Certificate & member in good standing with the Ontario College of Teachers
- Specialist in Special Education OR Special Education Qualifications (Part 2) and additional qualifications in Reading, Mathematics, or Integration of Information and Computer Technology in the Classroom
- Extensive knowledge of and experience with adaptive technology and software and the integration of information and computer technology in instruction for students with exceptionalities in both the elementary and secondary panels
- Strong knowledge of diagnostic approaches, assessment, differentiated instruction, and assistive technology in special education
- Minimum five years teaching experience working with students with a diverse range of exceptionalities as well as significant communication challenges
- Significant expertise in the Google platform related to Google Classroom
- Extensive knowledge and experience with the special educational programs and services of local district school boards
- Demonstrated leadership skills and experience (e.g. leading School Authority or Ministry initiatives)
- Demonstrated ability to work within a multidisciplinary team and community partners
- Experience providing community educator workshops and in-services on a wide range of topics related to special education
- Experience working within a continuum of special education service delivery models

### **Application package should include:**

1. Resume
2. 3 Letters of reference
