## **FACT SHEET**

## Use of Epi-Pen Jr.® in the School

NOTE: SCHOOL STAFF ARE ADVISED BY THE HEALTH UNIT TO ADMINISTER EPI-PEN® IMMEDIATELY UPON EXPOSURE OF THE CHILD TO THE IDENTIFIED ALLERGEN. AN AMBULANCE IS CALLED AND THE CHILD IS TRANSPORTED TO THE HOSPITAL.

THIS PROCEDURE CANNOT BE VARIED.

PHYSICIAN: Please complete the physician section of the form on the reverse side in its entirety. The specific ALLERGEN that causes the anaphylactic reaction must be identified. The **Health Unit** cannot instruct the school staff in the use of the Epi-Pen® until all of the information is complete.

PARENT: In order for your child to have an Epi-Pen® or Epi-Pen Jr.® in the School, your School Board's medication policy must be followed. Prior to, or at the beginning of every school year, contact the school principal for information about the policy and all the necessary forms.

Once completed forms are at the school, the **Health Unit** can assist the staff by holding teaching sessions on allergic reactions, proper use of an Epi-Pen®, and by working with staff, develop an emergency procedure for your child. It is suggested that the school have at least two photographs of your child for this purpose.

## PARENTS HAVE RESPONSIBILITIES TOO!

As a parent, it is your **responsibility** to:

- 1. supply the school with an Epi-Pen® or Epi-Pen Jr.® with the original container and prescription label or advise the school of its presence.
- 2. be aware of the expiry dates and supply new medication to the school as needed.
- 3. check the **Epi-Pen®** and **Epi-Pen Jr.®** once a month for discolouration in the clear plastic area which would indicate the need for replacement.

We also **strongly** recommend that your child wear a medic alert bracelet at all times.
