

A virtual event created by families for families

A Night of Inspiration: for Families Navigating High School & Beyond

Is your son or daughter heading into high school or are they in high school now? Do they have an IEP and/or live with a disability? Are they thinking about the future and after high school? Do they have a vision for their life?

Be inspired by three different stories! Two families will share how they have embraced the vision, one-page-profile and goals of their high school students and introduced some changes that are making a difference in their lives, especially outside of school. Hear another story of a young man who started looking at life differently with his family and independent facilitator after high school. Find out about the various steps he and his family took, and what life looks like now – including his own self-contained space in his family's home, and much more.

What to expect:

- *Family stories*
- *Helpful tips on preparing for transitions to high school, during high school & beyond*
- *Family created resources*
- *Useful links to Ministry documents*
- *Questions and answers*
